

New Zealand Certificate in Commercial Road Transport

(Heavy Haulage Class 1 Pilot)

Level 4

Designed in consultation with industry, MITO's training programme will provide new or existing heavy vehicle drivers with the skills and knowledge required to safely and competently drive pilot vehicles to support specialist heavy haulage vehicles with overdimension and overweight loads.

Programme outline

The Level 4 work-based programme is expected to take 7 months to complete.

The programme involves paper-based theoretical training and assessment, and task-based practical training and assessment that is undertaken in the workplace. Learning may also be supported by specific training courses provided by external off-job training providers.

Entry requirements

You must be employed full-time in the industry and hold the correct vehicle licence to enrol in this programme.

Programme Fee

There is no training fee for this programme until 31 December 2022.

QUALIFICATION OUTCOMES		LEVEL	CREDITS
OUTCOME 1	Demonstrate advanced understanding of, and comply with, the heavy haulage transport regulatory environment and individual health and safety obligations to ensure the safety of self, own vehicle, and other road users.	4	15
OUTCOME 2	Prepare and plan for a piloting trip and select and record routes using the appropriate planning and navigation technology.	4	5
OUTCOME 3	Manage route hazards and alert other road users of the potential hazards, direct load convoy and other traffic, and apply risk assessment and reduction techniques under a range of driving conditions.	4	25

MITO is a division of Te Pūkenga.
We support on-job learning and career
development for the New Zealand
automotive, transport, logistics and
extractives industries.
