

# New Zealand Diploma in Business (Level 5)

## (Leadership and Management)

### PROGRAMME OUTLINE

Provided by SIT, in partnership with MITO, this business diploma will provide current managers with business knowledge and skills that can be applied in leadership and management roles.

Graduates of the Leadership and Management strand will also be able to:

- Identify operational issues and challenges and apply techniques for continuous improvement to support the entity's performance
- Contribute to business planning to support the entity's performance
- Lead others to implement activities, including change processes, within the entity's plans to support its performance
- Manage projects within scope, resources, and time
- Develop strategies for a positive workplace culture and team engagement, to value diversity and to support the entity's performance
- Monitor compliance to meet internal and external requirements

### PROGRAMME CONTENT
