**NEW ZEALAND CERTIFICATE IN AUTOMOTIVE
DIESEL FUEL TECHNOLOGY (LEVEL 4)**

mito

Designed in consultation with industry, MITO's new training programme will provide you with the skills and knowledge required to safely and effectively diagnose and repair faults in diesel fuel injection systems – whether you're already experienced or just starting out in your career.

Programme Outline

The Level 4 programme is expected to take 2.5 years to complete.

The training programme includes a mix of practical training and assessment, undertaken in the workplace, and eLearning, allowing you to complete theory elements of the programme at your own pace. You will have access to videos, learning activities and course assessments, which can be easily accessed at any time and from any device – mobile phone, tablet or PC.

QUALIFICATION OUTCOMES		LEVEL	CREDITS
OUTCOME 1	Apply health and safety requirements to an automotive workplace	4	15
OUTCOME 2	Diagnose faults and repair diesel fuel mechanical, and electronic, delivery systems	4	130
OUTCOME 3	Diagnose faults and repair air induction systems	4	35

Entry Requirements

You must be employed full-time in the industry to enrol in this programme.

Programme Fee

There is no training fee for this programme until 31 December 2022.

MITO is a business division of Te Pūkenga
Work Based Learning Limited. We support
on-job learning and career development for
the automotive industry.
