

KNOWLEDGE IS *power*

The New Zealand Certificate in
Electric Vehicle Automotive Engineering (Level 5)

mito

MITO's new training programme will provide you with the skills and knowledge to safely inspect, service and repair light electric vehicles. Designed in consultation with industry and available to qualified automotive technicians, this programme will ensure you have the ability to support the widespread adoption of light electric vehicles in New Zealand.

Programme outline

The Level 5 programme is expected to take 11 months to complete.

The training programme includes a mix of practical training and assessment, undertaken via training courses delivered by AECS; and eLearning, allowing you to complete theory elements of the programme at your own pace. Online learning resources, including videos and theory assessments, can be easily accessed at any time and from any device – mobile phone, tablet or PC.

OUTCOME 1

Oversee team responsibilities and ensure compliance with legislative and company requirements to maintain a safe and effective workplace.

UNIT STANDARD	UNIT STANDARD TITLE	LEVEL	CREDIT
27564	Demonstrate knowledge of leadership	4	10

OUTCOME 2

Diagnose and repair uncommon and complex specialist system faults in light electric vehicles as an advanced technician.

UNIT STANDARD	UNIT STANDARD TITLE	LEVEL	CREDIT
